

February 1, 2016

Super Mix is pleased to announce the addition of Steve Fleming as Quality Control Director! Steve comes to us with over 20 years of experience in the cement and ready mix business. He is a civil engineer and former Technical Services Director with extensive experience in product development, analysis, mix design optimization, troubleshooting, information systems and management. Steve's skills and background are exciting additions to the Super Mix team. Please don't hesitate to contact Steve directly with any of your quality control or job specification needs.

Steve Fleming, M.Sc.E., P.Eng.
Mobile: (815) 529-0257
